

DUDGEON

SINCE 1947

Quilted Dining Chair

This chair was a wonderful commission to receive as we made 14 of them for an award winning superyacht built recently at Lurssen in Germany. The outside back was covered in quilted leather and the legs and arms were also covered in the leather. The seat, inside back and arms were constructed and covered in soft white boucle fabric before being fixed onto the leather carcass. Beautiful and extremely comfortable dining armchairs.
