

# DUDGEON

SINCE 1947

## Hatfield Conversation Piece

We made this fabulous sofa in two pieces as it was rather enormous.... It went through the wide front door of the client's country house with only a millimetre to spare! Dudgeon created the sofa for one of Britain's top interior designers – an aesthete according to the Financial Times – for his client whose grandfather was one of Britain's richest men. It sits in the front hall and is used for shooting parties, weekend parties and much more besides – every house should have one ... Covered in Claremont Cunard fabric and custom fringe.
